# Directions

- Print the pages with the circles.
- Cut or punch out all the circles, including the caterpillar's head. Display the caterpillar's head on a wall or other visible space.
- Choose your reading challenge. Each circle could represent a book that has been read or a set amount of reading time (such as fifteen minutes or thirty minutes).
- Each time a challenge is completed, add a circle to create a caterpillar's body. For example, if you choose to have each circle represent fifteen minutes of reading time and your student reads for thirty minutes, add two circles to the caterpillar display. If you choose to have each circle represent a book your student has read, you could write the book's title and the author's name on the circle before adding it to your caterpillar.
- Continue adding circles to the caterpillar for as long as desired.
